1949-70 Chevrolet

AcoustiSHIELD™ Pre Cut Kits Ready to Install

Roof to Road Solutions to Control Automotive Noise, Vibration and Heat

Introducing a multi-stage, automotive insulation and sound damping system to give your Chevrolet cars the “quiet riding comfort” found in today’s new cars. AcoustiSHIELD kits are designed on current “state-of-the-art” auto acoustic technology, to insulate and control the noise, vibration and heat in the passenger cabin. Kits are pre-cut and come with easy-to-follow installation instructions-----everything you need to do the job right.

Turn Your Chevrolet into “Quiet Riding Comfort”

Stage 1 Sound Damper Pads

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

Stage 2 Heat Absorber/Barrier Panels

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

Kits Include:

- **Stage 1** Pre-Sized Sound Damper Pads
- **Stage 2** Pre-Trimmed Heat Absorber / Barrier Panels, Spray Adhesive and Sealing Tape
- **Complete Illustrated Installation Instruction**

Dealer program available. For more information contact us at info@quietride.com

Firewall Mounting Pin Options For Older Cars and Trucks

American Cars and Trucks used a wide variety of mounting pins, clips, buttons and screws to attach the firewall insulator to the interior of the steel firewall bulkhead. Clean up and reuse your original mounting pins if you have them. We offer the following mounting pins and information based on what we have been able to find available.

Early Ford Firewall Mounting Pins

These all steel firewall mounting pins are a reproduction of the originals. They are available in a 3/4 inch length (Long) and in a 1/2 inch length (Short). The long pins work best for the early production cars and trucks. The Short pin works best for the 1942-48 cars and 1940-47 Trucks. The long pins may have been used in Ford cars as late as 1954. The short pins may have been used in Ford Trucks through the mid 1950s.

- Ford 3541-MPL 1935-41 Ford Firewall Mounting Pin-Long \$3**
- Ford 4147-MPS 1941-47 Ford Firewall Mounting Pin-Short \$3**

GM Firewall Mounting Plugs

General Motors started using a plastic firewall mounting plug to attach the insulator in the mid 1950s--1955 for Trucks and 1957 for Cars. These plugs are still used in GM vehicles today.

- GM 5500-MP 1955 to Present General Motors Mounting Plug \$3**

Street Rod Mounting Pins

With this new mounting pin kit, you can weld up your firewall mounting holes and install any of our insulators for that "smoothie look." Kit includes nine pin-sets and installation instructions.

- SRMP Street Rod Firewall Mounting Pin Kit \$34**

Universal Mounting Pins

If your original firewall mounting pins are missing or damaged beyond repair, these universal pins may be a solution. They are a plastic "Christmas tree" type pin that will fit most 5/16 inch holes. Kit includes 10 pins.

- UMPS-10 Universal Mounting Pin Set \$20**

Universal Wire Cap

A variety of car and truck manufacturers in the 1930s used a wire cap retainer to mount the firewall insulator. These are still available in a Long (1/2 inch) and Short (1/4 inch) variety and have a 1/2 inch button head that can be painted. To match the firewall color.
