Product Disclaimer

- The high temp ABS material will regularly tolerate temperatures up to 250 degrees.
- Air flow is the important factor in heat dissipation.
- Be certain to maintain at least one inch (or more) of clearance between the surface of the under hood cover and engine components like air cleaner covers.
- Some Steel hoods may require the drilling of hood cover mounting holes. Instructions are included in the kit.
- Hood Covers on fiberglass hoods are mounted with magnetic fasteners which are glued in place. Instructions are included in the kit.

QuietRide Solutions will not be responsible for improperly installed under hood covers.
