### Product Information/Disclaimer

- The high temp ABS material will regularly tolerate temperatures up to 250 degrees.
- Air flow is the important factor in heat dissipation.
- Be certain to maintain at least one inch (or more) of clearance between the surface of the under hood cover and engine components like air cleaner covers.
- Some Steel hoods may require the drilling of hood cover mounting holes. Instructions are included in the kit.
- Hood Covers on fiberglass hoods are mounted with magnetic fasteners which are glued in place. Instructions are included in the kit.

**QuietRide Solutions will not be responsible for improperly installed under hood covers.**
